

Love Can Be a Cup of Water (slightly revised 2022)

Love can be a cup of water,
meal that's brought, or whispered prayer.
Love can be given hour,
or a single blessing, shared.
Christ will help us start— He tells how
faith as small as mustard seeds,
in the strength of God, achieves!
So we're seeing love that springs from
kitchens, porches, cyberspace....
Jesus worked in any place!

Love can be a note, donation,
quiet list'ning, life consoled.
We respond to Christ's compassion
and his caring, outward, flows.
So we all—as Church together—
lifted by what Jesus brings,
spread that God-sent leavening....
From the Son of God as center,
yet expanding, near to far.
Love from God, be where we are.
